Following "The amourous Torment" and "The Remedy of Fortune," two records unanimously praised by critics, the team formed in 2005 by Pierre Hamon around the exceptional singer Marc Mauillon continues to work on the work of the great French musician-poet of the 14th century, Guillaume de Machaut. This project is the logical continuation from the previous two. Songs, virelais, ballads and roundels of Guillaume de Machaut are the culmination of the poetic art of courtly love, whose melodies are part of our memory and our psyche. Marc Mauillon is an exceptional talent even in the current environment of medieval music and these melodies 700 years on still maintain an impact. ---amazon.com

The main virtue of this enjoyable CD is the time the performers allow for Machaut's music to unfold… The playing on a variety of wind, stringed and keyboard medieval instruments is beautifully idiomatic and enigmatic, while the lazy and apparently effortless singing style is equally effective. --- prestoclassical.co.uk
