Lady Gaga - The Fame Monster (2009)

1.Bad Romance 2.Alejandro 3.Monster 4.Speechless 5.Dance in the Dark 6.Telephone 7.So Happy I Could Die 8.Teeth

The second album by Lady Gaga, “The Fame Monster“. It includes 8 new songs. The new album is very electronic, but it also feels more mature too than her previous album.

This places this album on my top-10 favorites for the decade, next to Madonna’s “Confessions on a Dance Floor” album. I know that many of my readers don’t understand my fascination with Madonna and GaGa when 95% of my music is actually alternative rock, but I recognize good pop when I see it, and I try to give it credit when it’s due. --- eugenia.queru.com
