Lazy Lester's late work was recorded in Notodden, Norway (Europe's secret blues capitol) with local guys. The band really knows how to play behind Lester, how to keep pace with his way of singing and playing. Furthermore, the recordings are containing this certain Southern flair and smell one would only expect in an old studio in Crowley, Louisiana. And, last not least, Lester is in good shape. A great, great album. Highly recommended to all fans of the real deal, Southern style. --- itsonlyrockandroll.info
