Lucky Peterson is a contemporary blues artist whose roots are grounded in the Southern Delta of the United States. He was discovered by legendary bluesman Willie Dixon at the age of five while he was performing in his father's nightclub. That led to appearances on The Tonight Show and The Ed Sullivan Show before the age of six. In 1969 he released an album titled 5 Year Old Lucky Peterson, and despite backing such artists as Etta James, Little Milton, and Bobby "Blue" Bland," he mostly disappeared from the spotlight for over a decade.
