Playing anywhere from Mississippi Delta cotton gin parties, Lafayette County line juke joints, Beale street clubs in Memphis to the main stage of some of the South's biggest music festivals. Ross states "The groove has always come from Howlin Wolf, Jimi Hendrix, and Elmore James and the soul always felt from B.B. King along with my admiration for many others in the electric blues".

Bud Bays- Guitars-After picking up the guitar in his early teens, Bud has worn many musical hats in addition to that of an accomplished blues guitar player. Over the years he has owned a recording studio, been involved with booking bands for various international venues and in the production side of the business all while continuing to play alongside recognized names in the blues music genre including Jim, Cody and Luther Dickinson, Frank Frost, Sam Carr, Mojo Buford and Kim Wilson.

John Miller- Bass Guitar- Playing guitar for a number of years, John started to play the Fender Bass as well to explore new territory. Since then John has established a signature groove and bottom that keeps the rhythm of the Mississippi Cadillac Blues Band truly strong.

Will Hunt-Drums Percussion- Another native Mississippian like the rest of the band Will Hunt started at a young age working the percussion section. He has a pocket which complements the Groove/Blues sound that the Mississippi Cadillac Blues Band has shown on its new CD “Stone Cold”. Will has played all over the South with several acts and brings a great beat with him wherever he plays.
