Tramp were a British blues band active during the late 1960s and early 1970s on an intermittent basis. This on/off activity and the loose, transient nature of the band's line-up were reflected in the group's name.

The line-up centred around the brother-sister pairing of Dave Kelly and Jo Ann Kelly, and included various members of Fleetwood Mac, plus various session musicians. The band released two albums; Tramp in 1969, and Put A Record On in 1974. All members participated in many other projects before, after and even during their time with Tramp. ---wiki
