Corby Yates Band - Back From Yesterday (2005)

1. *Dallas* 2. *Back From Yesterday* 3. *Green Eyed Girl* 4. *Are You Not There* 5. *Back To You* 6. *Salty Pain* 7. *Is This Evil* 8. *Do You Know* 9. *I Don't Mind* 10. *The Wrong Song* 11. *The Cure* 12. *Angel* Corby Yates - Guitar, Vocals Jim Yates – Bass Andy Doerschuk – Drums

Recorded at Dawghouse Studios and originally released on NTS records in 2003. 12 songs produced and mixed by BB Chung King. ---cdbaby.com

Obviously at this point in time almost everyone who is a Corby Yates fan was introduced to his music by seeing him live...and my Lord what a treat it is to see this power trio live. I was pleasantly surprised by how much emotion made it onto the studio CD. I don't know if this was a live studio recording or what, but it is raw the way Texas Flood is raw...good raw. Think of this as getting in on the ground floor of something special.

I don't see Corby becoming as big of a star as Jonny Lang. He doesn't sing as well and he probably doesn't appeal to the Hanson crowd (he's no pretty boy)...this is not a bad thing. Corby is real, and that makes his brand of blues more believable. I think many of the five star ratings here are for Corby Yates the performer, not Corby Yates the album. It is a tribute to his loyal northern California following. I give only four stars because I think Corby will get better. If you like SRV and you live outside California (where Corby has limited his touring for the most part), I recommend you get this CD. If you can get to one of Corby's shows then I recommend that you buy this CD at a show. ---amazon.com
