Powerhouse Spiritualized Rock... in the Omnipresent Light... As one comes into a greater understanding, that everything we create and send out as creative beings, goes out... and returns to the sender, we develop a greater capacity in comprehending, the true power that comes from within, balanced with gratitude & humility, and the obligations that come with it. All souls carry a divine gift, destiny and opportunity in their own limited and unlimited capacities, to manifest the unseen forces in "Donoring the Light" to all we contact. And therein we all have a tremendous responsibility and opportunity, that we all can and should fulfill. This is Your Divine Inheritance from The Creator of all things! It is most important to develop a greater sense of "Divine Urgency" in the manifestation of our Dreams. Entertainment is just that... Entertainment! And extremely real in it's most dangerous forms of manifestation and harmfulness, when the creator is unaware...or worse...actually totally aware of his creation's effect, on all it touches... but not understanding or realizing it's inevitable return...in the universal force to the creator who then reaps what he or she has sown! On the other hand... "Inner & Outer God realized, Self-Actualized Attainment" is another way... and achievement. Those who are becoming awakened and more aware of the illusive and misleading aspects of this life's matrix, which is one of the great challenges of this dream we call life... and to realize the healing that is taking place in their own lives, unshackled by the false perceptions and concepts they had been force fed for eons of time... in them the miraculous occurs.

To master the Inner & Outer challenges, and realize your absolute oneness with the Light and "Source of all things," which is working through all of us as "Human Celestial Terrestrial Beings" in the great awakening, is our divine destiny. Cosmic music carries the wondrous power to heal
