Having used Roy Buchanan's Guitar to record this album brought a unique sound to the music played, almost as if a ghost was present! This was perhaps the strangest recording session that I have ever done and no one was there to observe any of what took place. ---cdbaby.com

Bob Flurie has been compared to Roy Buchanan as a hard playing, killer guitar player. He has played with the Pointer Sisters, Quick Silver Messenger Service, Huey Lewis, the old Big Brother and the Holding Company, and many others. Mike Kelly plays keyboard bass, keyboards, and sings all at the same time, a trick he learned while performing with Milk & Honey. Mike has played all over the country, touring with all types of groups. Mike met up with Bobby when they were kids playing with Cherry Smash, one of the first Rock & Roll bands in the 60s and West of Baltimore, MD. Now after both have toured the world they are back together. --- gigmasters.com
