Their three highly successful releases on german top Blues label "Ruf Records", extensive tours in Europe and USA, as well as recent highlights like a sold-out show at the Vienna Opera House or their performance at the "Peer Blues Festival" (together with acts like Buddy Guy, Walter Trout, ...) prove their stand in today`s roots music scene.

Producer legend Jim Gaines (Stevie Ray Vaughan, John Lee Hooker, Santana,...) once praised Cryle as "one of the best singers I`ve worked with in 20 years. She is what we call in the business an `old soul`. She`s got the voice and she`s got the passion..."

There is an inherent magic that occurs when Meena Cryle & Chris Fillmore take the stage each night. It is an organic, spontaneous, and almost mystical experience to witness. That magic is now available on In Concert. ---bluesmagazine.nl
