A new Hot Tuna album is always something to look forward too and this one does not disappoint in the least. It's the electric band taken from the last Furthur festival tour. Jormas voice just seems to keep getting more expressive as time goes by. Stand out tracks include Third Week in Chelsea, Watch The North Wind Rise and the 11 minute plus Funky #7. The only minor downside is that on the old Dead fave song Big Railroad Blues Michael Falzarano sings the lead vocals..I would have loved to hear Jorma sing this one otherwise a great cd and one all fans should add to their collections. ---D.
