Linked to UK release with slightly different cat#. So now there's a German, UK and International version of this first entry in the series. There should be an entire series worth of German releases but I'm not sure how long the UK specific releases were made that omitted "N" from the cat#. There is apparently versions of the series that are specific to the Netherlands and Italy also, as well as whole series with different covers and cat#s on Editions Atlas. CDs don't you just love 'em. ---Lee Wrecker, 45worlds.com
