This CD contains a selection of songs, a kind of 'best of', highlighting the terrific slide guitar work performed by Dave Hole. Just listen to the track "Nobody Hears Me Crying", it has a bare minimum of lyrics being just a vehicle for Dave's slide guitar solos! "Quicksand" is another top song, with a somewhat menacing feel. "Tore Down", "Key To The Highway" and "The Plumber" are more great songs and a good cover of "Going Down" is included. "Counting My Regrets" is a slow, melancholy dirge.

The recording quality is crystal clear and well balanced. I remember seeing Dave and his band live around Perth Western Australia over 20 years ago when they were known as 'Dave Hole & The Hellraisers'. It is great to see that Alligator Records have now given Dave a start. --- Rock On! (Western Australia)
