The Guitar Play-Along Series will assist you in learning to play your favorite songs quickly and easily. Just follow the tab, listen to the CD to hear how the guitar should sound, and then play along using the separate backing tracks. The melody and lyrics are also included in the book in case you want to sing, or to simply help you follow along.

The book is perfect in my opinion. Has great classics for the acoustic. Very well arranged, sounds just like the originals. Just keep in mind, the music is pretty much identical to the guitar parts in the original. You will have to sing to supply the melody. But I believe every guitarist should have some ability to sing. Btw, a couple of pieces require knowledge of finger picking like dust in the wind and blackbird. ---Danny Nguyen
