MTV viewers get the rare opportunity to see legendary hard rockers Aerosmith perform acoustically on this special edition of "MTV Unplugged."

An excerpt from the MTV Unplugged book....."Despite the family entertainment angle, the boys were still boys. Aerosmith has never been a band to shy away from extreme, sometime slightly juvenile, sexual innuendo. But the painting of a topless woman on Joey Kramer's drum kit was a bit much for our television censors. We needed a solution and we needed it fast. Finally, in a flash of genius that was born of complete panic, we bought a set of pasties and attached them to the bass drum. Every time Joey hit his kit, the pasties would twirl. The band, of course, was more than a little pleased.
