Louis Moreau Gottschalk (May 8, 1829 – December 18, 1869) was an American composer and pianist, best known as a virtuoso performer of his own romantic piano works. He spent most of his working career outside of the United States.

Dubbed "the Chopin of the Creoles", he was, above all, the first to capture the syncopated music of South Louisiana and Caribbean in enduring works that anticipate ragtime and jazz by half a century.

Gottschalk's music was very popular during his lifetime, and his earliest compositions created a sensation in Europe. Early pieces like "Le Bananier" and "Bamboula" were based on Gottschalk's memories of the music he heard during his youth in Louisiana. In this context, some of Gottschalk's work, such as the 13-minute opera *Escenas campestres*, retains a wonderfully innocent sweetness and charm.
