The Crusaders produced this '80 album, one of the better Randy Crawford sets. The song "Last Night At Danceland" was a hit, while the album cut "One Day I'll Fly Away" got widespread radio airplay and did well in the international market. Crawford's quivering delivery and eclectic nature has made it difficult for record companies to target and market her material; this was one of the few times she penetrated the urban contemporary and R&B markets. ---Ron Wynn, AllMusic Review

Classic Randy Crawford.!!...This is definitely a must have for all Randy Crawford and jazz fans alike. Joe Sample found a winning voice when he discovered this vocal talent. From her soulful sounds on "Same Old Story" to her mesmerizing voice on "One Day I'll Fly Away" sends you off into another world.!! And who can forget the ever popular "Last Night at Danceland" and the timeless title track . This is without a doubt my all time favorite of jazz diva Crawford. ---Tony
