Kirk Covington, Steve Smith (drums).

The Scott Henderson Collection is a decent Introduction to the fusion guitarist's work throughout the '90s. Among the 11 tracks are four recorded with bassist Gary Willis as Tribal Tech: "Space Camel," "Song Holy Hell," "Clinic Troll" and "Thick." Henderson's combination of rock, funk and blues are filtered through his conservatory jazz background, which provides an interesting combination of technical musicianship with gritty structures. ---Al Campbell, Rovi
