A new solo album by Japanese famous bassist Tetsuo Sakurai released on this summer in Japan. This album contains 10 musics; 8 cover songs (Beatles, Stevie Wonder, Micheal Jackson, Jaco Pastorius, and so on.) and 2 self-cover musics. And Marcus Miller plays on "Butterfly" for guest!

These musics are slow and medium tempo arranged -Jazz, standard, pops and ballade. Moreover, he plays Warwick Infinity 5 strings as main bass; Fodera 5 strings, Fodera Emperor II 6 strings fletless and Fender Jazz Bass Jaco Pastorious tribute model. And he plays guitar and sings some songs.

Many genres of music harmonized on his bass-play, and appears his humanity. In this album base melody sing like talking as beautifully as lead instrument. It's a heartwarming, gently and sweet album. Hope to listened by his fan all around the world. --- Kanako Takizawa, amazon.com
