These two young musicians teamed up to create a stunning and creative album that is sure to delight any listener. Although they are fresh out of college, both Rachel and Dan are professional musicians in Minneapolis, performing as though they are twice their age.

In addition to working with Dan, Rachel has worked with extremely well regarded musicians including: Clay Moore, Tanner Taylor, Michael Pilhofer, Gordy Knutson, Lori Dokken, Jay Young, Jay Epstein, Terry Burns, Greg Schutte, and Rick Carlson as well as groups such as Urban Stride, The Girls, The Jazz MN Big Band, The Clay Moore Trio, and the Frontera Jazz Quartet. Rachel is a first call vocalist in the Twin Cities and is quickly on her way up.

Dan certainly has an impressive resume as well. He studied with jazz legends Craig Taborn (pianist for Chris Potter) and Kenny Werner (author of *Effortless Mastery*) and has been a featured artist in *Jazziz Magazine*. In addition to appearing on many albums, he recently released his own solo album, *Ruminations*. Whether working with vocalists or instrumentalists, Dan adds just the right touch and energy to any musical situation.

This album is a perfect representation two bright and on the rise stars in Minneapolis. *Save Your Love For Me* will immediately grab your attention as one of the best jazz recordings of 2009.
