With their absolute technical perfection and their musical approach, the vocal jazz ensemble Novi Singers were at the time often compared to Lambert-Ross-Hendricks or Les Double Six. The story of the Novi Singers begins in 1964 when Bernard Kawka, a student at the Warsaw Music Conservatory, decides to found his own jazz group with other students, choosing the voice as an ideal instrument. The original members of the group are Ewa Wanat (violin), Janusz Mych (flute), Waldemar Parzynski (percussion), Aleksander Gluch and Bernard Kawka (violin), all of whom both sang and played their respective instruments. Novi Singers produced two albums with vocal interpretations of Chopin compositions *Novi Singers sing Chopin (1971)* and *Chopin up to date (1977)*. They were naturally big with the Polish due to Chopin's national popularity. ---amazon.com
