## Pat Metheny - Parallel Universe (2007)

1. *Guitar Improvisation* 2. *All the Things You Are* 3. *Move to the Groove* 4. *Sassy Samba*  
5. *Arthurdoc* Musicians: Albert Heath - Drums Percy Heath - Bass Jimmy Heath - Sax  
(Tenor) Pat Metheny - Guitar, Composer, Guitar (Synthesizer)

This recording has been around an awful lot in various budget price guises, under the title "sassy samba" "complete move to the groove session" "live at Midem" and the whole concert on a 2 disc set called "luminescence" (this set has this disc plus a disc with BB King and Dave Brubeck in poor quality live sound. Pat guests on 4 or 5 tracks with the Heath Bros so the inclusion of his name in bold letters on the sleeve are highly misleading and put there just to try and sell copies. He only gets a couple of brief solos really. If you must buy this for completeness sake get this version as it is the cheapest around at the moment. ---zargb5, amazon.com
