The CD contains fragments of Wlodek Pawlik Trio's concerts recorded in 1999 at two jazz clubs in Kyiv : "Dynamo-Lux" and "Buddy Guy". The material comprises four jazz standards and two leader's originals.

"Wednesday night regulars at Dynamo Lux were given a special treat this week, as the Polish Cultural Centre had invited Poland's most popular jazz trio to give two performances in Ukraine. Piano, drums and bass made the atmosphere very romantic and slightly sad. The tunes inspired some guests to take to the dance floor, where they danced in an unusual style, mixing oriental and medieval elements: ' It's one of the best jazz concerts I've ever heard in Ukraine, enthused Alex Stasko, one of Kyiv's most devoted jazz fans, "I think that the Polish musical school is one of the most promising in Eastern Europe." The trio gave a second very successful performance at the Buddy Guy club as well. The Polish jazzmen have helped to change the commonly held belief in Ukraine that jazz is a black style of music and that the only place to listen to the real thing is New Orleans. Nowadays appreciation of jazz is becoming an indicator of good taste and many Kyiv venues are trying to attract more jazz bands. Polish Trio certainly set a great example of the sound of quality jazz." ---Marina Suponina, wlodekpawlik.com
