This is a first international album of one of the most popular artists of all-time in Poland. Her amazing voice makes her much better vocalist than Celine Dion or Mariah Carey. This version of the album contains 13 songs from standard version + all 3 bonus tracks from its Japanese edition ("Edyta Gorniak" first was released in Japan in 1997).

It was produced by famous Christopher Neil who previously worked with Celine Dion, Cher and many more great artists. Songs were written by such legends like Billy Steinberg, Rick Nowels, Climie & Fisher, Siedah Garrett, George Merrill or Shannon Rubicam. The best songs were released on singles: moving "When You Come Back To Me", dance and catchy "Anything" or "One & One" (it was a huge hit for Robert Miles who released his version before Edyta, but Edyta was the first artist who recorded this song), amazing rock ballad "Linger" or duet with Jose Carreras in power ballad "Hope For Us". And the song "Perfect Moment" was covered by Martine McCutcheon and then topped the UK singles chart.

It's a great album full of hits. I think it's the best album released in 1997. This is an excellent proof of Edyta's talent. She should conquer the whole world! ---Pawel Kasa, amazon.com
