05. Oxygène (Part V) – 10:31
06. Oxygène (Part VI) – 6:17

Personnel:

- Jean Michel Jarre – ARP Synthesizer, EMS Synthi AKS, VCS3 Synthesizer, RMI Harmonic Synthesizer, Farfisa Professional Organ, Eminent 310U, Mellotron and the Rhythmin' Computer

Jean Michel Jarre, son of film composer Maurice Jarre, is one of the true pioneers of electronic music. Oxygène is one of the original e-music albums. It has withstood the test of time and the evolution of digital electronica. Jarre's compositional style and his rhythmic instincts were his strong points in 1976. While his popularity has escalated exponentially over the years, he never quite achieved the quality of this amazing recording. The innocence and freshness provide most of its charm. Jarre's techniques and ability provide the rest. This epic work will appeal to fans of Tonto's Expanding HeadBand, Tangerine Dream, Synergy, Kraftwerk, and Klaus Schulze. --- Jim Brenholts, AllMusic Review
