Celtic Pink Floyd is a project devoted to the arrangement of classic Pink Floyd songs with a Celtic rock twist.

Traditional instruments such as uilleann pipes, fiddle, tin whistle, accordion, banjo, dulcimer, bodhrán, mandolin, and bones are utilized, as well as contemporary vocals, guitars, bass and drums.

Started simply as a "crazy, but just may work" idea, Celtic Pink Floyd has some amazing vocalists and musicians contributing their expertise to this twelve-track CD. Arrangers, producers and musicians, Damon Stout & Brian Stout are the guilty parties behind the madness, all while working in conjunction with producer Michael Vail Blum to form a hybrid of traditional Celtic music combined with classic rock.
