Join award winning Celtic band Govannen on a delightful album of instrumental Celtic Christmas music. Traditional favourites get a Celtic twist as two fiddles, Irish whistles, bodhran, zithers and more play stunning arrangements as jigs and reels alternate with haunting slow airs of Celtic carols.

Govannen are 4 talented individuals, who came together 5 years ago to celebrate Celtic music. Govannen was a Celtic blacksmith God. The weapons he makes are deadly in their aim, the armour impregnable. Those who drink from his sacred cup need not fear age and infirmity. The group hope to arm and defend the listener against what the world throws at you, and to drink of their sound is sure to heal what ails you. --- [paradisemusic.us.com](http://paradisemusic.us.com)
