Zion Train are Dub/Dance pioneers and have been undisputed leaders in the genre for the past 2 decades. The band were heavily involved in alternative and DIY underground culture in the UK during the 1990s as well as being purveyors of the finest Roots Reggae music throughout this period. They are one of the finest live dub acts on the planet and promoted the practice of dynamic onstage dub mixing which they perform alongside acoustic instruments and the best vocalists

Zion Train was founded by Perch (live dub mixing /production), in 1990 and he was later joined by Cod (melodica/production), Tench (production), Molar (voice), Hake (trumpet), and Forkbeard (trombone). Between 2001 and 2005 Dubdadda added extra live vocals and Bigga replaced Forkbeard on trombone in 2001, they were joined by Richard Doswell on tenor sax in 2009. The live line-up has always been very flexible, varying from Perch and a vocalist for sound-system gigs, to an extended lineup for larger events. Zion Train live always features a variety of renowned vocalists but primarily, the band have been fronted by Dubdadda. ---
