This show has been released in one bootleg form or another under at least 10 different titles. It features Reed in excellent form. Playing guitar and singing such that one can clearly hear and appreciate his literate lyrics, Reed delivers a rock-solid performance. Lou's backing band, The Tots, put on an incredible show. Sometimes prone to unfocused and less-than-energetic performances, The Tots put on the show of their lives here. This is Lou Reed without props, without camp, and just in your face Rock 'N' Roll.
