Kuschelrock, Vol. 2 isn't as musically coherent as some of the later volumes in the series, as it mixes pop hits from two distinctly different musical eras -- the '70s and the '80s -- but it still functions as a handy way to obtain loads of popular singles in one two-disc swoop. The biggest negative factor might be the import price, but then again, you don't usually find compilations with this high a frequency of hits in the U.S. ---Steve Huey, AllMusic Review
