CD reissue of this title from the innovative German Electronica outfit, one of the most influential instrumental outfits of the 20th century. Tangerine Dream has never produced anything calculated to make the masses jump off their chairs and start screaming Top 40 tunes, but they have managed to have an immense impact in the world of Electronic and soundtrack music. Their 107 (and counting) studio, live and soundtrack releases have their own driving hypnotic pieces that might differ from release to release, but they are all uniquely Tangerine Dream.
