## Naglfar – Teras (2012)

*01 – Teras 02 – Pale Horse [play](#) 03 – III Death Dimension Phantasma [play](#) 04 – The Monolith 05 – An Extension of His Arm and Will 06 – Bring Out Your Dead 07 – Come Perdition 08 – Invoc(H)ate 09 – The Dying Flame of Existence 10 - Tired Bones*

Kristoffer "Wrath" Olivius – vocals Andreas Nilsson – guitars Marcus "Vargher" Norman – bass, guitar, keyboards

Naglfar are a Swedish black metal band who have been active since 1992. Teras is their sixth studio album and their first in five years. The band draws their name from that of a ship that figures in Norse mythology, a ship made of the nails of the dead that will carry the hordes that will do battle with the gods during Ragnarok. As might be expected, Naglfar draw a great deal of their influences from the Poetic Edda and Prose Edda, major sources of Norse mythology originally penned in the 13th century.

In terms of sheer misanthropic venom, Teras is somewhat toned down from their previous releases, especially Pariah. While the record still contains plenty of acidic, abrasive black metal elements, including the harsh buzzing tones and Kristoffer "Wrath" Olivius' boiling-in-pitch vocals. But there is a catchiness to this album, a cruel mercy that infuses it, giving their melodic black metal a slightly hookier edge.

Naglfar have lost very few sharp edges to gain a great deal of balance, and with it, a broader appeal. The hammering blast beats and acid-scoured riffs are set atop a more solid and well-defined melodic backbone. This solid structural base combined with Naglfar's extremely skillful execution make this album a stand-out success.

Dirk Verbueren is listed as a session drummer for the album, and is most closely associated with Soilwork as their permanent drummer. He has also served as a session drummer for a number of bands, including Aborted, and was also recently recorded on Devin Townsend's Deconstruction. He brings a hammer-and-tongs intensity to the forge of Naglfar's percussion, lending the album its forward drive.

“Monolith” is towering and grandiose, slowing to nearly a dirge as it lumbers forward with a grim stateliness. “Bring Out Your Dead” sweeps back a forth, tossing the listener around with the mercilessness of a storm at sea, then reeling them back in with a fantastically hooky chorus. “Invoc(H)ate” is probably closest to their earlier work in terms of the sheer, unmitigated venom, but even this track comes across as more polished, more carefully cut and set.

Some fans may be disappointed by Naglfar's new-found slickness, but ultimately I think it serves their sound and they have put together a solid, strong, cohesive effort with Teras. ---
