Two disc (CD + DVD) release featuring performances that have rarely been seen since the original transmission on German television. The session that produced this package was filmed in September 1970 and features four tracks, two tracks apiece from the two albums then currently available. The performance features the hit single 'Spill The Wine' alongside 'Tobacco Road', 'Bare Back Rider' and 'Paint It Black' which is extended way beyond its original two plus minutes with the version included here extended to almost 13 minutes in length. This performance then is a historic performance which captures Eric Burdon from an exciting period of his career and whilst the period 1970-1971 is a well documented part of Eric's career in print this film footage of Eric Burdon and War performing together is rare. ---amazon.com
