Little Walter -- aka Marion Walter Jacobs -- wasn't the first great harmonica player in the blues, but the instrument had a whole new force and personality after he was done with it. Little Walter was a technically gifted player with a dark, powerful sound, but he also approached the chromatic harmonica in a new way earlier players had not, and by using a microphone and amplifier to power his harp, he created sounds that were fierce, wild, and dramatic. Walter first rose to fame playing with Muddy Waters' band, but he also became a solo star, cutting his first hit on his own, "Juke," at the tail end of a Waters session in 1952, and becoming one of the few harp players to make it as a headliner. *The Best of Little Walter* features 12 songs from Walter's years with Chess Records, which remained his recording home from the release of "Juke" until his death in 1968. Selections include "Juke," "Blues with a Feeling," "Sad Hours," "My Babe," and more. ---Mark Deming, AllMusic Review
