Recording Date July 24, 1938 - July 23, 1941

Beginning not with the career-launching title track but with the bandleader's own haunting signature tune, "Nightmare," this is an outstanding slice from a brief period at the start of the Second World War. Included in 15 digitally remastered sides led by the eccentric clarinetist from 1938 to 1941 are performances by Buddy Rich, Billie Holiday (her only recording with Shaw), and even Ray Conniff. This is a great introduction to a mercurial, innovative musician who created an early form of fusion music by joining a string section and rhythm section to a big band. --- Mark Allan, Rovi
