Seven-time Grammy nominee and Grammy Award winner Earl Klugh presents a collection of finely-crafted, highly listenable compositions on THE JOURNEY. With his characteristic warm, nylon-string sound, Klugh improvises fluently throughout this recording. He lays down subtly phrased, highly melodic solos over a variety of smooth grooves which range in flavor from easy, open sambas to relaxed, R&B-tinged ballads. Klugh's brilliant musicality shines through from the beginning of THE JOURNEY to the end.
