Rachmaninov's Liturgy is less well known than his Vigil ("Vespers"), but has nevertheless gained in popularity with western choirs as a concert item in recent years, though the double-choir setting of the Lord's Prayer has always enjoyed a certain renown, often being sung in an English paraphrase. It is far more than a mere sketch for the more famous work, too, though the links are clear - anyone hearing the opening psalm, "Blagoslovi, dushe moye", for the first time will immediately make the connection. The Flemish Radio Choir's rendition is very fine indeed, reverent, well paced and at the same time electrically atmospheric (and also including sufficient of the celebrant's petitions that it comes across neither as an artificial celebration nor a concert suite) and the magnificent SACD sound is just what such a riveting performance merits. The only criticism I would make is of their very light "l" sound, which truly gives them away as non-Russians. ---gramophone.co.uk

Composed in 1910, but only reconstructed from parts as late as the 1980s, after a long period of obscurity, the Liturgy of St. John Chrysostom is one of Sergey Rachmaninov's most profoundly moving choral works, as well as one of his most harmonically rich and sonically radiant compositions. This setting of the Liturgy, along with Rachmaninov's Vespers and other sacred pieces, enjoyed a significant revival in the 1990s during the general awakening of interest in religious music for meditative listening, and their popularity has continued through periodic releases of first-rate recordings. ---Blair Sanderson, AllMusic Review
