In my opinion, this CD showcases Thalia's voice in a way that none of her previous works have been able to. No overproduction, no flashy ridiculousness, just Thalia's voice, and a band. Each song is sung so exquisitely, that any doubters of her vocal talents will be left with their jaws on the floor.

There are a good mix of emotions present on this album: emotional love ballads, exciting up-tempo songs, and her typical post-break up type song. From this CD, it is obvious that she has matured as both an artist, and as a human being. She is vastly improved upon discs of the past, and in my opinion this is a MUST have. (I've been listening to it for days straight).

Her duet with the great Joan Sebastian is a real treat, and for all of the old school fans, she performs a fantastic medley of hits, like Amor A La Mexicana, Piel Morena, Entre el Mar Y Una Estrella, and No Me Enseñaste. It is very refreshing to hear these great hits in a new, "unplugged" way.

Let's put it this way- Thalia has won me over. She can sing extremely well, and the EVERY song found on Primera Fila is fantastic. --- Mrs. William Levy, amazon.com
