It's almost impossible to write about Mister and Mississippi and not start with a cliché. Yet, you cannot avoid it when you are writing about the four band members, because sometimes the best things really do happen in the blink of an eye. That however, is an obvious message but there is no better description for Mister and Mississippi. Try to imagine: the four band members met each other in their first year of the Herman Brood Academy, a music college in Utrecht, the Netherlands. They join forces - Danny, Samgar, Maxime and Tom have to write and perform three songs for the Act Development class of band coach Marcel van As (Spinvis, Copark). Although the four of them have different musical backgrounds, they decided in a café, while drinking a beer to accept the assignment to do something completely different and not in the traditional style of a pop/rock band with vocals/guitar/bass and drums. Together they form the band with four eye catchers on stage, like a united front; a wall. The sound: calm and folky, somewhat dreamy but dynamical and experimental without being inaccessible, so that the listeners can give their own interpretation to this unique style of music. ---
